SKILLS

Kali Linux	<div></div>	Project management	<div></div>
Web Development	<div></div>	Music-guitar	<div></div>
Cybersecurity	<div></div>	SMM and digital marketing	<div></div>

STARTUPS AND EVENTS

2019-2020

MUSLIMA

A platform for matching young couples around the world

- The start up idea is to make a platform like Tinder but for much serious relationship and for finding a marriage partner not just a girl for one night.
- The app might solve the common forced marriage issues in central Asian countries by giving more opportunities to young people choose their life partners,
- I cant tell more because I have signed an NDA

2019

HACKATON

First ever hackaton organized in Tajikistan

- In this hackaton our team presented some software related ideas that could potentially solve the common social issues in Khujand and we got a 3rd place
